

QUT Student STEM Clubs for Girls

QUT celebrates a diversity of [student societies and clubs](#), including for those who'd like to connect with, celebrate and champion women in STEM. These include:

 <p>The logo for the QUT Women in Maths Club features a teal square with a yellow border. Inside, the letters 'W' and 'M' are stylized in white and black. Below the square, the text 'WOMEN IN MATHS' is written in white capital letters on a teal background.</p>	<p>The QUT Women in Maths Club aims to empower female and gender diverse students studying or passionate about mathematics. Through running regular casual social events, professional and personal development workshops and networking events, the club aims to create a strong community for members.</p> <p>Facebook:</p> <p>https://www.facebook.com/qutwomeninmaths/</p>
 <p>The logo for the QUT Women in Tech Club consists of the words 'WOMEN IN TECH' in white and red capital letters on a black rectangular background.</p>	<p>The QUT Women in Tech (WIT) club is a group of highly motivated students who share a passion and love for all things technology. Whether it's IT, programming, web design, digital marketing, or anything in between, our vision is to connect women, encouraging friendship, peer support, and mentorship with successful professionals. We hope to bring together the immense intelligence, creativity, and curiosity of our members to promote diversity and better the university and the field as a whole. Women in Technology aims to unite, inspire and empower students pursuing a career in technology. All genders are welcome.</p> <p>Facebook: https://www.facebook.com/WITatQUT/</p>
 <p>The logo for the QUT Women in Science Club features a pink background. It includes a globe with a satellite in orbit, and a yellow banner across the globe with the text 'WOMEN IN SCIENCE' in black capital letters.</p>	<p>The QUT Women in Science club's mission is to promote equality and equity in the scientific field by creating a community focused on empowering, supporting and connecting women in science, with members of all genders welcomed. Our primary objectives are to provide a support network, encourage professional development and career opportunities for women in science and science related degrees at QUT.</p> <p>LinkedIn: https://www.linkedin.com/company/qut-women-in-science</p>

Gender Equity in Engineering Makes Sense (GEMS) is a student-run group which aims to foster gender diversity in engineering. We provide professional, educational and social support to our members through events and activities focused under our three pillars of mentoring, industry and charity. By developing a diverse community of engineering students, GEMS hopes to contribute to a better future for engineering where gender diversity, equity and inclusivity are the norm within the industry.
